

TRU VIRTU[®] HI-TECH WALLETS

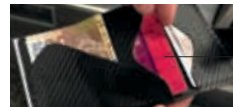

TRU VIRTU® PHILOSOPHY

Safety and protection of personal data and documents come first in relation to our TRU VIRTU® products.

The TRU VIRTU® product philosophy stands for the development of innovative and functional products with protectoral functions combined with a distinctive design and high quality.

In the process, high-quality materials such as anodized aluminium, high-strength plastics and genuine Italian leather are being used. This is what makes TRU VIRTU® products extremely robust but light at the same time and that is how new product characteristics and functions, e.g. RFID-protection, can be realized.

All TRU VIRTU® products are made in Germany or developed and tested exclusively in Germany by our engineers and designers. TRU VIRTU® - Reduced to the Max!® means maximum functionality at minimum size.

PROTECTION SYSTEM

TRU VIRTU® HI-TECH WALLETS protect cards from:

- illegal scanning of personal data (RFID/NFC-Scanning)
- demagnetization
- outside influences (splash water, sand, snow) and mechanical load

TRU VIRTU® products meet the highest safety standards and were successfully tested according to the „GSA-Opaque Sleeve” method and TÜV certification.

SLIM WALLET CONCEPT

Unlike traditional wallets your TRU VIRTU® wallets stay constantly flat and do not put on size – even if you fill it to the maximum.

NORMAL LEATHER WALLET

TRU VIRTU® CREDIT CARD CASE

MADE IN GERMANY

For our new product line „CLICK & SLIDE“ we decided to set up our production facilities in Germany.

We sourced many different suppliers all over the country, applying strict standards regarding to product quality and environment as well as we pay attention to corporate social responsibility.

One example is our assembly line.

This facility is designed to employ disabled people, who get the chance to work under fair and protected conditions and who like our products very much and so, they do a great job for our brand.

MADE IN
GERMANY

ITALIAN LEATHER

All our leathers are carefully selected and come from tanneries in Italy. These tanneries are mostly family businesses, who have a long tradition and have developed enormous skills and workmanship in treating this natural product until it becomes the trendy and elegant leather, you will find in our products.

One can say, the new „CLICK & SLIDE” wallet collection combines the best of both worlds: Patented technology „Made in Germany” with Genuine Italian Leather. This will create a unique product experience.

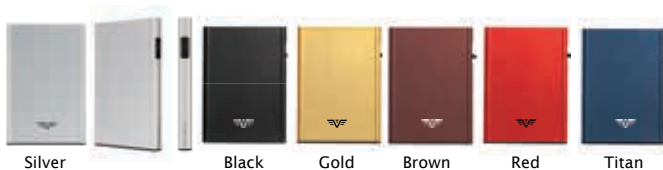

CLICK & SLIDE Card Case

The patented „CLIKE & SLIDE“ technology developed and made in Germany offers extremely fast access to the most important cards. With just one „click“, triggered by a press with the finger, the cards are spread out in a fan-like manner. The well-known TRU VIRTU® profile with the characteristic design ribs and the use of high-quality materials, leads to a high stability and strength. Developed for minimalists with the highest standards.

The patented TRU VIRTU® CLICK & SLIDE card case offers protection for max. 5 cards (mix 4 embossed & 1 flat) against illegal data theft of NFC / RFID chips and demagnetization.

CLICK & SLIDE Card Case Carbon Fibre

The worlds only wallet with automatic slider function. The new "CLICK & SLIDE" Carbon Fibre wallet is not much bigger than a credit card. With a touch of a finger up to 5 cards slide out automatically. It protects the cards against electronic data theft from NFC/RFID-chips and demagnetisation. Thanks to it's ultra thin carbon fibre plates on aluminium case it is lightweight and scratch resistant. Ultra slim and compact. Made in Germany.

MADE IN GERMANY

CLICK & SLIDE WALLET

The patented CLICK & SLIDE wallet convinces with its innovative "CLICK & SLIDE" technology. With only one touch from your thumb your cards slide out in staggered order. You can easily access your cards without opening your wallet.

The envelope is made of finest Italian leather and offers space for additional cards, business cards, and banknotes. Furthermore the leather envelope gives the advantage that „tap & go“ cards (e.g. Metro) can be used conveniently.

CLICK & SLIDE WALLET COIN POCKET

The new wallet "coin pocket" offers all advantages of a Tru Virtu wallet but additionally it provides space for coins.

USER MANUAL CLICK & SLIDE

The following user manual gives you a short instruction to handle your wallet correctly. Please read carefully, before you start using your wallet.

Activate your wallet

To allow a proper operation, your brand-new wallet should be activated as follows:

- Push 3-5 cards together halfway into the card case
- Move/press them about three times in both directions against the stopper (black rubber)

More details: <https://truvirtu.com/en/faq>

The following user manual gives you a short instruction to handle your Click & Slide correctly. Please read carefully, before you start using your Click & Slide.

1. Load Cards

Push max. 5/min. 3 cards down all together until they "click"

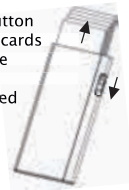

2. Secure Cards

Push button upwards for locking of cards

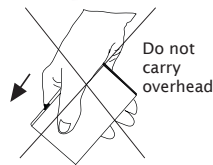

3. Release Cards

Push button down – cards will slide out in a staggered way

- For max.5 / min.3 bank cards (mix of max. 4 embossed + 1 flat card)
- Insert cards only all together, not one by one
- Use only original(credit/debit) bank cards
- Due to deviations in card dimensions, single cards might fall out/jam
- Shaking the case overhead is not part of a "normal" usage
